

2026 Colour Boards

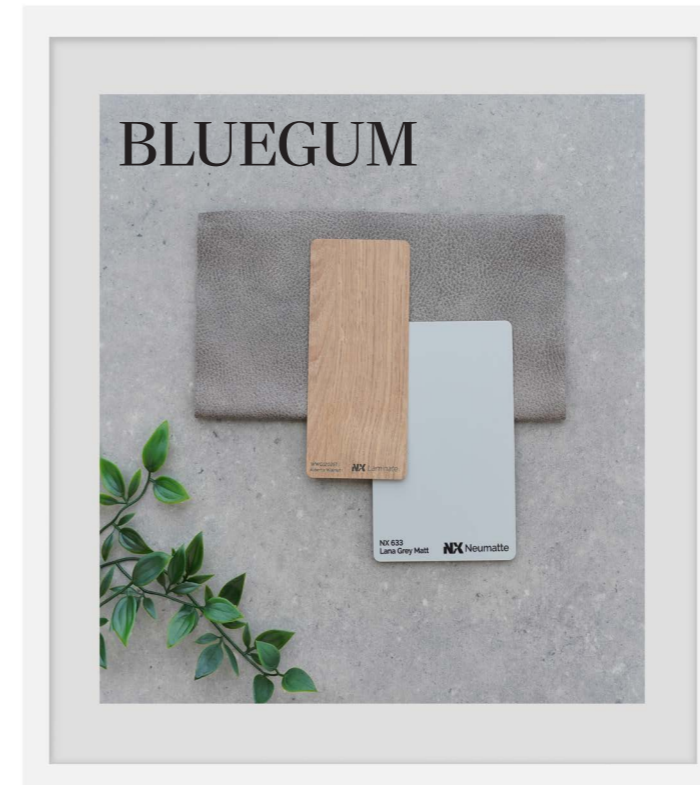

GRAND
CARAVANS

Colour Boards

Each of the following colour boards has been thoughtfully curated by our in-house interior designer, selected to complement the Grand Caravans aesthetic and reflect the best of Australian living. These are our signature palettes for 2026 and each one has been designed to work beautifully as a complete interior from the moment you walk through the door.

Every colour board is paired with your choice of chrome or black tap and handle finishes as standard. For those who would like to take things a step further, we offer a number of upgrade options to personalise your interior further.

Dunes

Dunes draws its inspiration from the coast, pairing white matt cabinetry, light timber benchtops, soft herringbone flooring and warm taupe upholstery for an interior that feels as calm as a morning by the water.

CUPBOARDS

White Matt NX620

Bluegum

Bluegum is a nod to the Australian bush, grounded and understated with light grey matt cabinetry, warm timber benchtops and concrete flooring that brings a raw, natural texture to every surface. Cool tones meet warm details in an interior that feels effortlessly considered.

CUPBOARDS

Lana Grey Matt NX633

Eucalypt

Eucalypt takes its inspiration from the iconic eucalyptus tree and the quiet, timeless beauty of the Australian bush. The palette reflects the natural world around it, from the deep greens of the canopy to the warm earthy tones of the forest floor, creating an interior that feels as though it belongs exactly where you have parked it.

Saltbush

Saltbush finds its inspiration in the coastal landscape, where salt hardy trees meet the shoreline and the air carries the quiet calm of the ocean. The palette captures that effortless coastal feeling, the pale softness of sand, the texture of weathered driftwood and the muted warmth of a sky just before sunset. An interior that makes every campsite feel like it is right beside the water.

Upgrades

Dual Colour Cabinets

Starting at \$699

Rather than a single cabinet colour throughout, you have the option to select two complementary tones. For example, a Sage Green Matt on the base cabinets paired with White Matt on the overhead cabinets. This creates a layered, considered look that elevates the interior considerably.

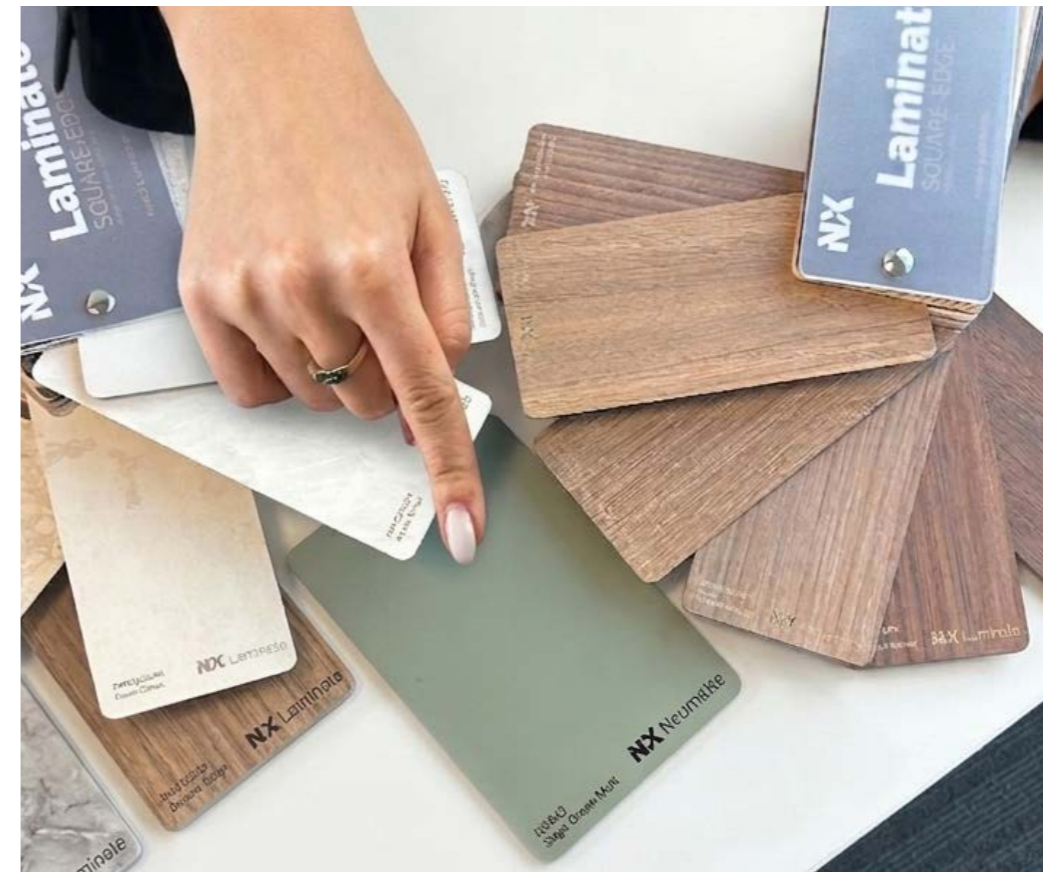

Full Custom Design Appointment

Starting at \$299

For customers who would like complete creative control, we offer a personalised design appointment guided by our in-house interior designer. This session opens up a much broader selection of cabinet colours, flooring options, upholstery and Corian benchtops. Additional upholstery selections are available through Warwick Fabric House, giving you access to a wider range of textures, tones and finishes to suit your personal style.

Please note a flat rate design fee applies and each upgrade item is individually priced.

Terms and Conditions

Please note that if a selected colour or item is unavailable at the time of purchase, you will be contacted promptly and provided with suitable alternatives to choose from. In instances where a part or component is substituted with one of a similar specification and function, no credit or compensation will be provided unless the change results in a complete deletion of the upgrade.

This policy applies to all finishing materials and colour selections throughout the build process.

We look forward to welcoming you to the Grand family and are committed to supporting you every step of the way, from your first design appointment through to your handover and beyond. If you have any questions or are unsure about anything along the way, please do not hesitate to speak with your sales consultant who will be happy to help.
