

GRAND

CARAVANS

AUSTRALIAN MADE FAMILY OWNED

We are a family-owned Australian caravan manufacturer with 20 years of industry experience. Our passion for caravanning drives us to provide the best possible experience for our customers. Thanks to our dedication to quality and customer satisfaction, we have built a loyal customer base and are grateful for their ongoing support.

We specialise in designing and manufacturing luxury caravans using state of the art 3D technology. Our skilled team creates stylish and functional caravans with features tailored to our customers' needs. We continuously innovate and embrace new technologies to keep our caravans at the forefront of the industry.

We value **honesty, transparency, integrity** and we welcome potential customers to tour our factory. We understand the importance of making an informed decision when purchasing a caravan, and our team is always ready to assist with any questions or concerns. We take pride in our work and are confident that our caravans will provide you with many years of memorable adventures. We can't wait to be part of your next journey & look forward to bringing your dream caravan to life.

OUR RANGE

We're proud to introduce five distinct models in our range — making it easier than ever to find the perfect caravan to suit your lifestyle. Whether you're a couple chasing off-grid adventures around Australia or a family eager to explore the great outdoors together, we have a model designed to take you there.

OUR PROMISE

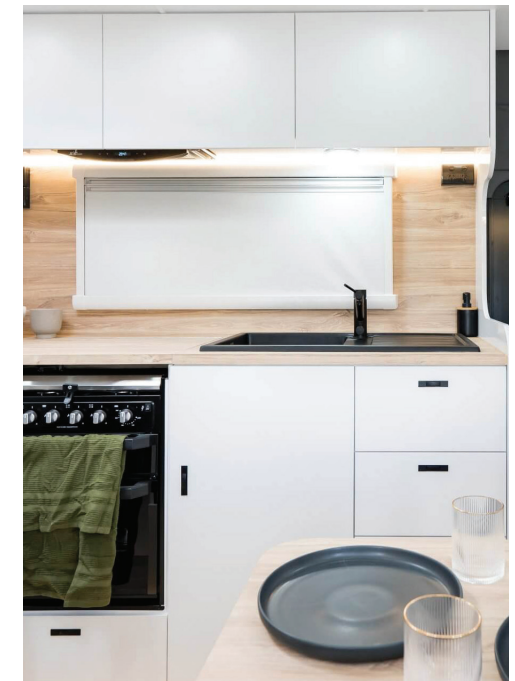

At Grand Caravans, our mission is simple. We strive to create exceptional, Australian-made caravans that deliver unparalleled comfort and reliability on every journey. We are dedicated to blending innovative design with meticulous craftsmanship to ensure that our customers experience the very best in luxury and practicality. Our goal is to turn your travels into memorable adventures by upholding the highest standards of quality and service.

Built from a passion to make travel luxurious, we're solving the challenges of the open road with quality, family-driven craftsmanship.

We're more than just a business—we're a second-generation, family-owned team with years of passion for caravanning.

It all began with our father, and we're now proudly run by the brother team, Neth and Meth Kudagama. We're proud to be Australian-made, and every caravan we build is a reflection of our dedication to giving you the best experience on the road.

Our commitment to quality and customer satisfaction has earned us a loyal customer base, and we are grateful for their ongoing support.

BUILD

Your caravan's foundation starts with a high-quality, custom-built FP Chassis, crafted from Australian-made, galvanized zinc-coated SupaGal steel. We fit premium suspension systems from trusted Australian manufacturers such as Cruisemaster and Tuff Ride—designed to take you wherever the road leads. With a 5-year structural warranty on your chassis and suspension, you can trust Grand Caravans and our premium partners to get you to your destination with confidence. Choose the suspension setup that suits your needs—from leaf spring to independent coil or self-levelling airbag systems—fully customisable to your lifestyle and travel goals.

Our build process is driven by precision and innovation. With an in-house design team, CNC machining, and advanced 3D modelling, we're able to create stronger, lighter caravans purpose-built for Australian conditions. We've evolved beyond the outdated meranti timber standard, adopting a cutting-edge one-piece fibreglass sandwich panel construction for the walls and roof. All Grand Caravans with this construction come with a lifetime rot-free wall guarantee for complete peace of mind.

As an industry-first, we proudly offer a 100% timber-free caravan, including all cabinetry, doors & benchtops—designed using premium lightweight composite materials. Our European-style frameless cabinetry is screwed together, not stapled, ensuring long-lasting durability and strength.

For the 2025 range, premium honeycomb composite flooring now comes standard—delivering superior strength, weight reduction, and water resistance. Every caravan is equipped with a Victron Energy electrical system & lithium battery, providing reliable, efficient off-grid capability for today's modern explorer

Proudly 100% Australian owned and made, choosing a Grand Caravan supports local jobs and businesses. Book a factory tour and experience the craftsmanship and quality that set us apart.

COMPOSITE

At Grand Caravans, we've taken composite construction even further with Aeroglass—our exclusive range of custom-engineered Australian made caravan panels. Using cutting-edge Australian manufacturing techniques with high quality European materials, **AEROGLOSS** delivers exceptional strength, insulation, and long-term durability for caravan construction.

Already setting a new standard in the industry, caravans built with Aeroglass are fast becoming the preferred choice for savvy travellers. With more manufacturers expected to adopt this technology, Aeroglass is proudly leading the way in the future of caravan construction.

The outer layers are crafted from GRP (Glass Reinforced Polyester) fibreglass, known for its toughness, impact resistance, and long-lasting finish. Sandwiched between them is a structural XPS (eXtruded PolyStyrene) foam core—a closed-cell, high-strength material that offers outstanding insulation and rigidity.

AEROGLOSS composite construction is a key innovation that sets Grand Caravans apart. By combining advanced materials with superior engineering, we've created a product that is lighter, stronger, and more durable—perfectly suited to Australia's tough and varied landscapes. Whether you're heading off-road or embarking on a lap of Australia, our **AEROGLOSS** panels provide the confidence, comfort, and reliability you need for every journey. It's not just a better way to build caravans—it's the future of caravan construction.

DESIGN YOUR OWN CARAVAN

We have an experienced in-house interior designer available to assist you in selecting the perfect colors for your caravan. Whether you're looking for a vibrant pop or a calm, neutral palette, our designer will guide you through the process, offering expert advice to ensure your choices reflect your style and create the atmosphere you desire.

Design a caravan that's uniquely yours by using our online custom caravan builder. Experience your unique design take shape with our interactive digital interface, where you have full control to customise every aspect to suit your preferences.

Choose from a wide selection of premium materials, finishes, and features, and elevate your caravan with premium upgrades. Watch as your choices come together in a digital representation, helping you fine-tune every detail before finalising your choices.

Once you've perfected your dream caravan, submit your design to us. Our team will promptly review your specifications and provide a comprehensive pricing breakdown for your approval.

TRACKER

COUPLES | OFF ROAD | SINGLE AXLE

Introducing the Tracker – our single axle caravan, designed for adventurous couples who want to go off grid without compromising comfort. Built in Australia using advanced 3D modelling, the Tracker is fully customisable, off-road ready, and easy to tow and manoeuvre wherever the road takes you.

Images in this brochure may feature optional extras or upgrades that are not included in the standard specification and may be available at an additional cost.

OWNERS GROUP

We'd love for you to join our exclusive Grand Caravan Owners Facebook Group—a dedicated community where our owners can connect, share their adventures, ask questions, and get the latest updates directly from our team. It's a great place to swap travel tips, showcase your caravan journeys, and be part of our growing family. As a family-owned business, we truly value building lasting relationships with our customers, and this group is one of the ways we stay connected and support you long after you hit the road.

Join our Facebook community!

Have a question? Get in touch!

THANK YOU

Thank you for taking the time to come and see our caravans. As a proud family-owned business, your interest and support truly mean the world to us. Every caravan we create is built with care, passion, and a genuine commitment to helping families explore Australia in comfort and style. By choosing to support us, you're not just purchasing a caravan—you're supporting a Australian family business that values craftsmanship, adventure, and lasting customer relationships. We appreciate the opportunity to be part of your journey and look forward to connecting with you again soon.

Special thanks to our customer Kylie Kennedy for the incredible photos featured on the cover and on pages 2 and 3.
